RESUME

1. Meeting was in April in Hubschachen in Switzerland at the rope manufacturer Jakob AG, hosting by Konstantin Kühner, 14 participants 2. Meeting was in the autumn in Vienna by TÜV-Austria, 13 participants. Main topics is the finalization of the recommendation "lifetime of ropes", the translation in German was done by Regina Thaller, but she found out some errors. So the finalizing of this recommendation should be done in the summer of 2026. The second topic is the testing with the half-coil; it was presented at Management Committee in Barcelona in October 2024.

Next Meeting: the plan was to organize a meeting by LATIF in 2026, but the IFT of UNI Stuttgart hasn't given any answer since the meeting in September 2025 so the project is now suspended. So, Winter will write an E-mail to urge by the IFT.

Topics: 1. project-half spool and 2. the finalizing of the recommendation "lifetime of ropes"

3. discussion of the experience of the members about the different ways to make splices
Recommendation: "splice inspection"
