RESUME

During these meetings, the topics of 'snow farming', 'environmental liability', 'retention ponds' and 'snow management' were discussed. Another key focus was the topic of 'mobility', on which, following the meeting in Alagna, further considerations were set out under the leadership of A. Dorfmann and S.W. Oberjakoher regarding the scope and approach.

The current status of the work on these topics is that the papers still need to undergo editorial revision within a small group before being submitted to the General Secretariat.
